Projects

Alertify

React | TailwindCss | Nodejs | Expressjs | MongoDB

The Alertify is a platform designed to enhance public safety by providing tools for reporting incidents, coordinating emergency responses, and ensuring timely notifications to relevant authorities and community members. The system aims to empower users to act swiftly in emergencies, while also fostering community engagement and awareness.

Smart Home Management

React | Css | ContextAPI | React-Router-dom

A modern React SPA for managing smart home zones, devices, and automation routines. Built with Vite for fast development and a clean, responsive UI.
